Our History

1998

Our story began in 1998, at Al-Riyadh with providing software web solution with a big vision to Arab nation society. In a short time, we achieved a notable rapid growth due to offering easy and simple solutions for the client.

2003

In 2003 "Combo Time", we upgrade the new version of the program of forum (vBulletin). "Dimofinf" is the first company that introduced this program in the Arab nation.

2005

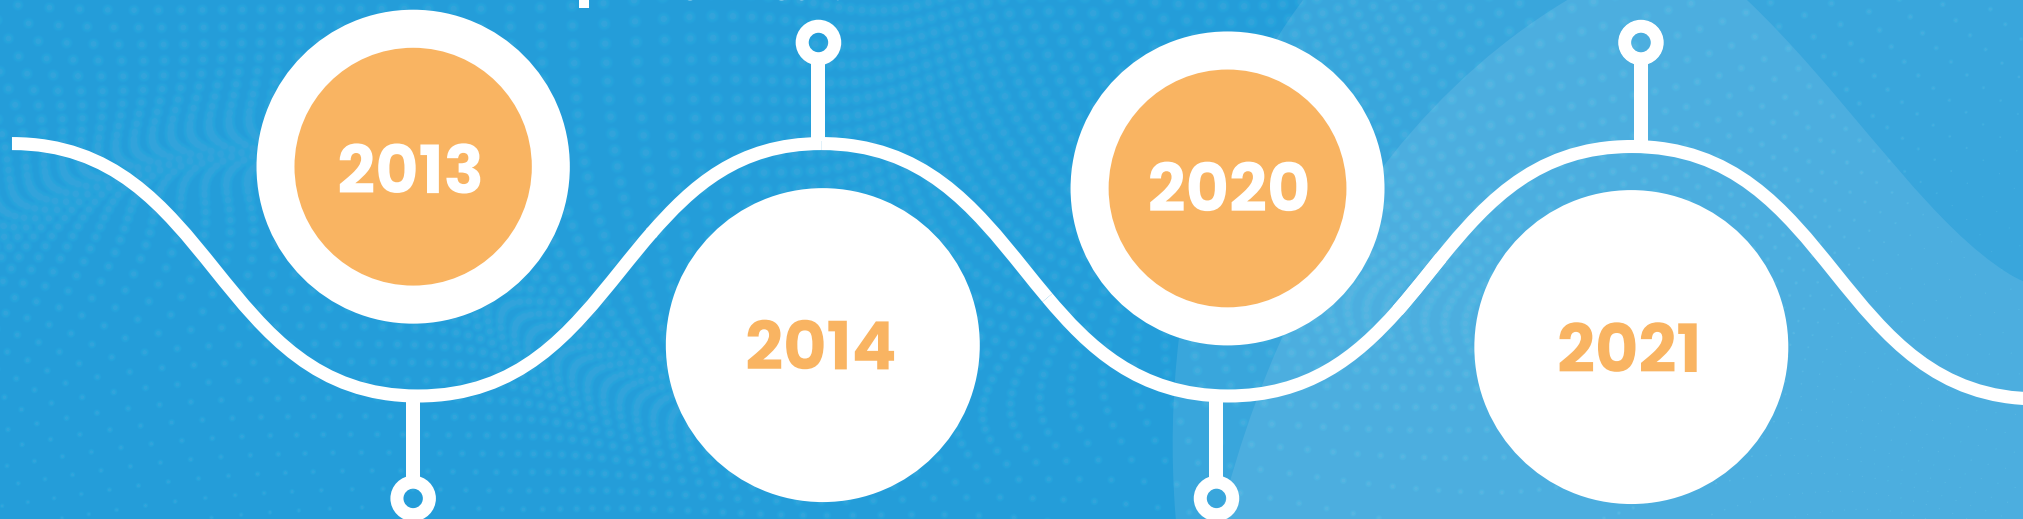

In 2005, we launched a Hosting Service department to professionally serve our clients.

2007

In 2007, we launched the first version of "infinity" CMS with a vision based on continuous research and development to suit the needs of the market.

2011

In 2011 we upgraded "Infinity" program and changed its name to "Dimofinf" because the program was restructured from scratch in order to suit the market needs. Our goal is usually meet your needs.

2013

2014

2020

2021

In 2013 we developed the program of Dimofinf to version three and opened our second branch in Egypt to discover the number of requests that Dimofinf made and we closed the year with 20000 client.

In 2014 we have searched about hosting with a flexible pricing structure and high uptime and availability, in this year we had got the cloud hosting to open more sources of hosting in Dimofinf and upgraded to Dimofinf four .

In 2020 we had upgraded the Dimofinf program to version five and to compete in the market we had started in Saudi Hosting and mobile application field .

In 2021 we became an official reseller with Microsoft in Mail Exchange hosting to reach the clients need.

Dimofinf aims at fulfilling client's needs by deeply understanding their business and delivering an optimizing solution starting from the initial phase of the requirements till the final delivery, maintenance, and continuous upgrade. **"we sell solution, not product".**

Our team operates with enthusiasm and flexibility focusing on our clients, in order to be their reliable partner of **digital services and solutions**. We seek to help our clients to face the challenges of modern times.
